Roxanna/Shell Oil Company
ILD080012305

A site inspection of the above named facility was conducted on April 11, 1984, by Region V FIT personnel. The Shell Oil Company has waste disposal areas which are regulated under RCRA and waste disposal areas which were closed prior to RCRA. The pre-RCRA disposal areas contain various heavy metals and priority pollutants.

The Shell Oil Company has filed its Part B application under RCRA. Modifications on the application have been given to the Illinois Environmental Protection Agency(IEPA). The IEPA has not reviewed the changes and will not be able to for a number of months. Final approval for the Part B has not been given.

Because the facility has filed its Part B application, it is not currently eligible for HRS scoring.
